GHS RECYCLING LIMITED ENVIRONMENTAL POLICY

GHS Recycling Limited's core mission is to make environmental sustainability intrinsic to the Business. Our internal commitment's to environmental sustainability will at least mirror and, unless impossible, exceed what we are asking of others.

We have identified, as part of our environmental promise how activities within the yard interact with the environment and we are committed to reducing the negative environmental impacts of our own activities, in particular those relating to: energy, water, waste and transport.

We are committed to continual improvement in the environmental performance including the prevention of pollution from our activities and as a minimum, complying with all applicable environmental legislation and other requirements to which we subscribe, related to our environmental impacts.

The Director and management are committed to the responsibility of driving the environmental policy. In particular the core areas; energy, water, waste and transport. We are committed to understanding, measuring, improving and communicating our environmental performance and engaging management and employees in the process.

As a value-driven organisation, GHS Recycling Limited is also committed to ensuring staff wellbeing, notably by providing a safe, open and co-operative working environment and professional development and training opportunities.

The management team is responsible for ensuring that the environmental policy is regularly reviewed and updated as and when necessary. The management team will also ensure resources are made available for the implementation of the environmental policy.

The environmental policy is available to all staff, contractors, suppliers and the public.
